WELLNESS RESOURCES

BC2M HS's evidence-based program was started in 2015 and has since grown to 320 high schools with over 10,000 active members leading us in this movement. Currently, we have a waitlist of over 180 high schools requesting our club model at their school, and we need your help to do this! With your support, we can bring this incredible resource to more communities so they, too, can benefit from the proven decreases in stigma, increased awareness, and greater levels of empathy that the club creates on campus. Help us reach our goal by participating in or hosting a BC2M fundraising event with your community today! All funds raised will go directly to supporting our High School Program.
